Shreet Career Guidance Services Pvt. Ltd.

Shreet Career Guidance Services Pvt. Ltd. is one of India's remarkable ISO Certified admissions Consultancy assisting students to study at top most universities abroad since 8+ years. Our founder Dr. Avinash Gupta has devoted his life to provide the brightest future to MBBS aspirants in India and Abroad. He has been recognized by various media platforms as one of the most influential personalities in the field of MBBS Admission Guidance.

With 13+ years of expertise in the field of MBBS Admission Guidance his dedication has elevated Shreet Career Guidance from a modest organization in Lucknow to an internationally acclaimed organization. Dr. Avinash is one of the few guidance experts who take time out of their busy schedule to visit the college they are associated with and firsthand experience the facilities and infrastructure of the college to ensure good future of the students.

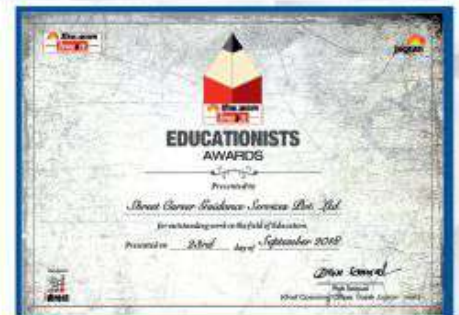

We have networks with some of the most prestigious universities in the world and are authorised partners of Top Most Universities. We have presence in 15+ cities in INDIA and 200+ associates worldwide.

Shreet Career Guidance Services Pvt. Ltd. has excellent record of imparting best admission counseling and we have successfully placed a large number of students in reputed Colleges and Universities.

We are here for providing:

- ★ 100% Admission Assurance
- ★ Affordable Budget
- ★ Guaranteed Admission in selected program
- ★ Excellent and experienced counselling
- ★ Very active consultants panel
- ★ Reliable and honest counselling
- ★ Trustworthy and recognised institutions

Study India (MBBS-MD/MS)

One cannot overlook the significant role of an institution in medical education. An amalgamation of excellent infrastructure along with experienced and skilled faculty has a great impact on student's career trajectory.

As there are a number of medical institutions across the country, one should always verify few of the necessary requisite before deciding to take admission at any of these medical colleges. Things to be considered includes college establishment, number of years the college has been running, approval by the NMC, facilities for clinical exposure, affiliated hospital, daily patient inflow, laboratories, infrastructure, etc.

The National Eligibility Entrance Test (NEET) is a competitive exam conducted by the NTA every year for aspirants interested in pursuing a career in medicine and seeking admission to MBBS, BDS, BAMS, BHMS, BUMS, BSc (Nursing), MD / MS courses across India. Depending upon the marks obtained in the NEET UG/PG examination students participate in All India counselling and State counselling to secure a seat in their preferred medical college.

National Testing Agency (NTA) is a premier, specialist, autonomous and self-sustained testing organization established to conduct entrance examinations for admission/fellowship in higher educational institutions.

Our experienced guidance counselor with their years of experience and expertise in Medical admission guidance can be the best guide to reach for advice and queries related to MBBS/MD/MS admissions procedure and work through complete process efficiently and smoothly.

We offer comprehensive guidance to all medical aspirants regarding admission procedures, counselling process, registration, document verification, college selection for MBBS/MD/MS and help you focus your efforts on the right Medical College according to your merit and budget.

Eligibility MBBS-MD/MS

One cannot overlook the significant role of an institution in medical education. An amalgamation of excellent infrastructure along with experienced and skilled faculty has a great impact on student's career trajectory.

Why Study Abroad ?

Studying abroad opens a myriad of options to students who take the big step. If you apply to an affordable medical school abroad it will lower down your education cost and make a huge difference in cutting down your study expenses. Seeing the world with an open-minded perspective will make you a culturally aware global citizen which will benefit you wherever you go.

Few attributes:

- ✔ Direct admission
- ✔ Excellent quality education
- ✔ No entrance exam
- ✔ No language tests like- TOEFL/IELTS
- ✔ No capitation/donation
- ✔ Affordable living and study expenses
- ✔ Globally recognised degree
- ✔ International exposure
- ✔ Wider scope of career options
- ✔ Universities recognised by WHO, FAIMER, IMED, MCI, etc
- ✔ International standard education with advanced technology, state-of-the-art facilities
- ✔ Opportunity to work in international research teams

Why Choose Us?

The very first step towards achieving your dream to study abroad is to select a university. An experienced team first weighs down your talents, areas of interest and qualifications and accordingly list out the colleges you are eligible to get admission at. We have networks with some of the most prestigious universities in the world and by bridging the gap between the university and the students we help in fastening the admission process. We keep you updated about all the admission procedures and assist you in preparing the necessary documents. We help you in acquiring Visa, documents translations and medical check-ups smoothly.

We will guide you and plan your finances in a way that you are able to manage your MBBS abroad without any worries. We even help you in securing education loan from banks. We ensure that your stay abroad is safe and without any stress. We help you with arranging accommodation and make sure that you have contacts of people who will help you during any emergency. We give you contacts of your seniors who can guide you in the university. We provide both pre and post-admission assistance. Our assistance lasts as long as you are studying abroad.

Medical aspirants can improve their chances of getting admission at premier medical institutions abroad with the help of good mentors. We keep ourselves updated with latest compliances and requirements and are well versed in the procedures for college applications, we guide you through each and every step with precision and clarity. You will get a comprehensive idea about courses available at each college, possible career pathways, eligibility requirements, cost implications and application deadlines.

Student Saga

I am grateful to Shreet Career Guidance who gave me the opportunity to study abroad that has given me memory to cherish for a lifetime. The years I spent there have been full of learning opportunities and during my whole stay I was taken care very nicely all thanks to Avinash sir.

Our Student's **SUCCESS** Our **Real Achievement**

Shreet Career Guidance gave me an astonishing platform for the overall growth and development. The whole admission process was well taken care of and even my accommodation and mess facilities were all prepared beforehand. I sincerely extend my gratitude to Avinash Sir for such support and help.

The choice to study abroad through Shreet Career Guidance was the best decision I took. The counselors were great, they briefed me every thing about the Russian University and its living conditions. They always stayed in touch with me during the course. Having all these connections with people all over the world, I think will help me greatly in my future.

I am very thankful to the team of Shreet Career Guidance who were very supportive and helpful at every step of my admission process and also for giving me the confidence to take the step forward to study in a foreign country.

Coming from a remote area I was not sure if, I would be able to study abroad but Avinash Sir gave me a life changing golden opportunity that helped me to fulfil my dreams of becoming a Doctor. International exposure shaped up my personality and constant support from SCG team helped me to adjust in the new environment pleasantly.

- Submission of Passport Copy
- Submission of Original Academic Documents for Legalization

A VISA invitation letter is issued from university within 40 days

Education is the passport to the **future**, for **tomorrow** belongs to those who prepare for it **today**.

Russia

Russia or the Russian Federation is a transcontinental country in Eastern Europe and North Asia. The largest country in the world, Russia constitutes one-seventh of the world's landmass and spans eight time zones. Here you can find the oldest mountains in the world, the Urals, and the deepest lake in the world, Lake Baikal.

Russia is undoubtedly one of the most beautiful places you would ever set your eyes upon. From expansive gardens to snow-covered mountains at the distant borders, to ornate monuments like Basil's Cathedral and Bolshoi Theater, you are in for a great deal of vibrant environs and a long and well-preserved history.

Russia's biggest cities have social lives comparable to New York's vibrant scene. In St. Petersburg alone there are 2,000 libraries, 221 museums, 80 theatres, 100 concert halls, 45 art galleries, 62 movie theatres over 100 concerts, shows and festivals each year.

Russian is main language across Russia. Many younger, educated Russians and those working in the service industry know enough English to have a basic conversation.

Russians have their own versions of fast-food restaurants which range from cafeteria-style serving comfort foods to street side kiosks cooking up blinis or stuffed potatoes. Stylish cafes serving cappuccino, espresso, toasted sandwiches, rich cakes and pastries can also be spotted all over Saint Petersburg and Moscow.

Medicine is one of the most sorted and rewarding career and studying MBBS is the stepping stone towards the same. It is important to choose premier universities and colleges to study medicine, be it in India or abroad. Every year, more than 10,000 Indian students take admission in Top Medical Universities of Russia. It is considered one of the most popular destinations to pursue MBBS for Indian students due to its global standards of education.

Ukraine

Ukraine is one of Europe's biggest countries after Russia and packs a lot of diversity in its lap. With large undiscovered surroundings, Ukraine is one of Europe's indisputable travel destinations, filled with rich colorful tradition and warm-hearted people. To experience diverse and off-the-map adventures Ukraine is a traveler's paradise.

Ukrainians are one of Europe's most open and hospitable people. Most of the social unions and interactions take place around Ukraine's hearty food served in abundance. Ukrainian culture has been influenced by the cultures of both Western Europe and Russia. The country's geographical location has served as a major melting point of the two cultures.

The traditional Ukrainian diet includes chicken, pork, beef, fish and mushrooms. Ukrainians also tend to eat a lot of potatoes, grains, fresh, boiled or pickled vegetables. Specialities include Chicken Kiev and Kiev cake. Ukrainians drink stewed fruit, juices, milk, buttermilk, tea, coffee and horilka.

Ukraine lies in a temperate climatic zone influenced by moderately warm, humid air from the Atlantic Ocean. Winters in the west are considerably milder than those in the east. Average annual temperatures range from about (5.5–7 °C) in the north to about (11–13 °C) in the south. The average temperature in January, the coldest month, is about 26 °F (–3 °C) in the southwest and about 18 °F (–8 °C) in the northeast. The average in July, the hottest month, is about 73 °F (23 °C) in the southeast and about 64 °F (18 °C) in the northwest.

Leading higher educational institutions of Ukraine have several centuries history and strong academic staff. In 2005 Ukraine signed the Bologna Declaration and has standardized system of education together with 46 European countries, which enhances mobility of students and graduates across Europe. Tuition fee in Ukraine is significantly lower than in Europe, CIS and North America.

Kyrgyzstan

Kyrgyzstan is filled with Silk Road relics, picturesque canyons, hundreds of alpine lakes, thousands of rivers and endless mountain peaks. Lake Issyk Kul, nicknamed "the Pearl of Central Asia" is the world's second-largest alpine lake and offers a variety of water sports and resorts. Karakol is the 3rd largest city in Kyrgyzstan with slopes famous for skiing and parasailing. Arslanbob houses the largest naturally growing walnut forests in the world.

Ethnic Kyrgyz make up the majority of the country's population, followed by significant minorities of Uzbeks and Russians. Islam is the dominant religion of Kyrgyzstan with 88% of the population following it. The other faiths practised include Russian Orthodox and Ukrainian Orthodox versions of Christianity. The locals of Kyrgyzstan are very friendly and warm towards foreigners.

The climate in the country varies regionally. The low-lying Fergana Valley in the southwest is subtropical, with temperatures reaching 40 °C. The northern foothills are temperate and the Tian Shan varies from dry continental to polar climate with temperatures sometimes reaching sub-zero. In the lowlands, the temperature ranges from around -6 °C in January to 24 °C in July.

It's true that many dishes in Kyrgyzstan have meat in them, but there are countless salads and endless different types of bread, teas and dishes like hummus, bibimbap, tofu noodles, potato samsa, veg oromo, manti etc you can gorge on. There are abundant of fresh vegetable, fruits and dry fruits available. The Dungan cuisine is mostly vegetarian and for satiating your Indian food cravings you can head to 'The Host' restaurant in Biskek.

Favorable and multicultural atmosphere in the country allows students to adapt to the lifestyle and explore the university life with great zeal. MBBS in Kyrgyzstan is very affordable, no Donation & no Hidden costs. No entrance exam like IELTS/SAT, etc are needed to be qualified. After completion of MBBS in Kyrgyzstan students are eligible to apply for licensing exams like USLME (USA), PLAB (UK), NZREX (New Zealand), etc. The course is also recognized by the Medical Council of India (Approved by MCI). The Medical universities in Kyrgyzstan are one of the elite medical universities in Central Asia, having excellent reputation in the training of highly qualified doctors.

Philippines

Philippines officially known as the Republic of the Philippines is an archipelago country in Southeast Asia situated in the western Pacific Ocean. It consists of about 7,641 islands that are categorized broadly under three main geographical divisions from north to south: Luzon, Visayas, and Mindanao. The capital city of the Philippines is Manila and the most populous city is Quezon City, both part of Metro Manila.

There are five International Airports served in Philippines. Philippines is the founding member of the United Nations, World Trade Organization, Association of Southeast Asian Nations, the Asia-Pacific Economic Cooperation forum, and the East Asia Summit. It also hosts the headquarters of the Asian Development Bank.

The climate is tropical, with March to May (summer) being the hottest months. The rainy season starts in June and extends through October. The coolest months are from November to February, with mid-January to end of February considered the best for cooler and dryer weather. Locations exposed directly to the Pacific Ocean have frequent rainfall all year. The average temperatures range from 78°F / 25°C to 90°F / 32°C, and humidity is around 77 percent.

Filipino cuisine has developed from the different cultures that shaped its history. It is a melange of Indian, Chinese, Malay, Spanish, European and American influences. America's influence is palpable in the Philippines, and you'll be hard pressed to find a mall without the requisite McDonald, KFC, Pizza Hut, and even Taco Bell.

The total course fee for MBBS in Philippines is quite low and affordable for Indian students. The degree awarded is Globally Recognized by International Bodies and Organizations like the Medical Council of India (MCI). English is the official language of Philippines along with Filipino proving to be an add-on benefit during Internship and Clinical practices. Philippines is the largest supplier of trained Doctors and Nurses to USA and several other countries around the world. Students planning to migrate to US can crack USMLE Part I & II in Philippines only.

WEATHER
2°C – 12°C in winter
20°C – 35°C in summer

DISTANCE/FLIGHT TIME
1,118 km - 1h:30m

Nepal is generally associated as the nation with snow-capped mountain peaks. The country along the southern slopes of the Himalayan mountain range is host to eight of the 10 highest peaks in the world, including Mount Everest, Lhotse, Makalu, and Kanchenjunga (on the border to Sikkim). South of Nepal's mountains lay a chain of national parks presenting diverse wildlife.

In southern Nepal, summer temperatures exceed 40° C and in winter temperatures range from 7°C to 23°C. In mountainous regions, hills and valleys summers are temperate while winter temperatures can drop to sub-zero. The Kathmandu Valley has a pleasant climate with average summer temperatures of 20°C – 35°C and 2°C – 12°C in winter. Average temperatures in Nepal drop 6°C for every 1,000 m you gain in altitude.

The currency of Nepal is NEPALI RUPEES. There are coins for denominations of one, two, five and 10 rupees, and banknotes in denominations of one, two, five, 10, 20, 50, 100, 500 and 1000 rupees. It's easy to change cash and access ATMs in Kathmandu, Pokhara and other cities, but almost impossible in rural areas or on treks.

Documentation process is easy for Nepalese Medical colleges in comparison to other countries. Nepal is very close to India and it does not require visa to travel or study. MBBS in Nepal is cheaper than Pvt Indian medical colleges and other top countries like USA, UK, Australia, Canada etc. The standard of teaching is excellent in Medical colleges of Nepal. Their syllabus and curriculum are very similar to India and no new language needed to be learnt. That's why most of the Indian students prefer Nepal when it comes to studying MBBS abroad.

Bangladesh

Bangladesh is South Asia's greenest jewel – a country braided with rivers, with a rich culture waiting to be explored. Bangladesh is bordered by the Indian states of West Bengal to the west and north, Assam to the north, Meghalaya to the north and northeast, and Tripura and Mizoram to the east. To the southeast, it shares a boundary with Myanmar (Burma). The southern part of Bangladesh opens into the Bay of Bengal.

Bangladesh has a subtropical monsoon climate characterized by wide seasonal variations in rainfall, high temperatures and humidity. There are three distinct seasons in Bangladesh: a hot, humid summer from March to June; a cool, rainy monsoon season from June to October; and a cool, dry winter from October to March.

Bangladesh has an enormous variety of food catering to all budgets. Bangladeshi food is similar to Indian food, lots of curry based dishes, soups, vegetables, roti and chai. Although contrary to in India, Bangladeshis eat a lot of meat (mutton, chicken, and beef). Many popular fast food chains from U.S. such as KFC and Burger King can also be spotted readily. Bangladesh-Chinese fusion restaurants serving fantastic cuisines can be tried by food lovers.

The colleges are approved by all the International Organizations like WHO, AVICENNA, FAIMER, etc. The Universities are also recognised by the Medical Council of leading nations and Medical Council of India for providing MBBS course to Indian students in the English language. The MBBS degree awarded is accepted all across the world and after graduation, the students are eligible for all the licensure examinations like USLME, PLAB, NEXT, NZREX, etc.

There is a lot of similarity in the Universities of Bangladesh and India in terms of syllabus, books, study pattern, duration of the course; etc. Hence Indian students are able to adjust to the study curriculum smoothly. Educational and teaching methods are similar to those of India there is no need to appear for any language entrance exams like IELTS/TOEFL/ PTE to take admission for MBBS in Bangladesh.

South America (GUYANA)

Republic of Guyana is a sovereign country located in the northern mainland of South America. Guyana encloses a wide variety of landscapes and ecosystems- coastal plains in the north, mountains and highlands covered in rainforests, and Savannah plateaus in the southern region along the Brazilian border. Even though Guyana is a South American country it has a strong British influence and caribbean culture.

English is the official and widely spoken language of Guyana and is used for education, government, media, and services. The native language of majority of population is Guyanese Creole, an English-based creole with slight African and East Indian influence but natives are able to communicate in English even in the remotest Amerindian villages. Indo-Guyanese people also speak Hindi.

57.4% of the population is Christian, 28.4% is Hindu, 7.2% is Muslim, 1.9% adhere to other religions, while 2.3% of the population don't follow any specific faith. Christmas and Easter are widely celebrated across the country along with Diwali, the festival of light when all households and city streets are decorated with lit-up candles, Phagwah, known in India as Holi, and Eid-ul-Fitr.

Guyana has food to suit everyone's tastes with a focus on Caribbean, Asian and Latin American recipes that make abundant use of spicy locally grown chillies and fresh tropical fruits and vegetables. Indian food is readily available as Indo-Guyana people makeup 43.5% of the population.

In Guyana students are exposed to an educational atmosphere that is most favourable for higher studies. It provides the opportunity to pursue exceptional medical programs with hands-on clinical training and advanced infrastructure. American education system and curriculum is followed at the universities also providing provision for Clinical rotations in hospitals of United States.

Georgia

Georgia located at the crossroads of Western Asia and Eastern Europe, is bounded to the west by the Black Sea, to the north by Russia, to the south by Turkey and Armenia, and to the southeast by Azerbaijan. The capital and largest city of Georgia is Tbilisi. Batumi, Kutaisi, Borjomi, Gudauri are major tourist attraction cities.

Georgia is a very safe and feminine prominent country. There is absolutely no crime and International students can go in buses, trains etc without problems. Most of the people of Georgia are Christian and are God loving. Georgian folks are very pleasant and accept religious and cultural diversities.

The climate of Georgia is extremely diverse, considering the nation's small size. There are two main climatic zones, roughly corresponding to the eastern and western parts of the country. The climate of Georgia is mild and rainy on the coast and in the western plain, while it is more continental and arid in the central and eastern inland areas and the mountains are colder.

Georgian food the world's original fusion cuisine has the culinary influence of historical empires including the Mongols, Ottomans and Persians. Tbilisi's Deserter's Market is a fascinating way to discover the fundamental ingredients in Georgian cuisine. Georgia's unofficial national dish, khinkali are steamed dumplings filled with meat, cheese or vegetables very similar to Shanghai's famous soup dumplings, whereas neighborhood bakeries wood-fired oven are very similar to an Indian tandoor. Rustic khinkali eateries are found throughout Tbilisi to experience traditional Georgian food.

Georgia is obtaining importance as a popular destination among the medical students who wish to pursue their higher study abroad. The Georgian Medical Universities have a global recognition and offer the high standard of education and facilities including infrastructure and equipment. Georgia is a country brimming with amusing culture, religions along with the fascinating landscapes and ancient history. The universities are member of many International and European Medical Associations.

Romania

Romania has a large melange of culture and traditions to offer. Think medieval towns, time-capsule villages, delicious cuisine, picturesque monasteries, virgin forests, majestic mountains, a blossoming art community, impressive landscape and high quality education and it all consolidates Romania.

Romanian is spoken as a first language by approximately 90% of the entire population, while Hungarian and Vlax Romani are spoken by 6.2% and 1.2% of the population, respectively. There are also native speakers of Ukrainian, German and Turkish language living in Romania. English and French are main foreign languages taught in school.

Romania has a climate that is temperate and continental, with four distinct seasons. The average annual temperature is 11 °C (52 °F) in the south and 8 °C (46 °F) in the north. In summer, average maximum temperatures in Bucharest rise to 28 °C (82 °F), and temperatures over 35 °C (95 °F) are fairly common in the lower lying areas of the country. In winter, the average maximum temperature is below 2 °C (36 °F).

In Romania eggs and sandwiches with butter and meat, pastry or jam accompanied by coffee or tea are regular breakfast staples. Many kinds of meat are consumed in the country: pork, veal, chicken, turkey, rabbit, and fish. 'Mititei' soup, grilled sausage seasoned with garlic is a common appetizer.

In terms of life quality, Romania is one of the safest countries in Europe, with the crime rates among the lowest in Europe.

In Romania higher education and living cost are the cheapest in all European Union. The excellent academic standards are achieved with reasonable tuition fees and daily costs while the education sector being a top priority for Europe's competitiveness. Romania boasts many centuries of academic excellence.

China

China has something unique and different to offer anywhere you go. As one of the strongest developing countries with a strong economy, China has great advantages to attract foreign students: affordable tuition, considerable scholarships, priorities on education and technology, modern facilities and profound Chinese culture.

China has the largest network of universities in the world of over 2,000 universities. Although China is deemed as the world's second largest economy the cost of living is quite cheap compared to most western countries without compromising on the quality of education. Most of the Chinese universities are recognised by the MCI and impart whole MBBS course in English language.

Average annual temperatures (-11 to 24 °C) in north, (11–25 °C) in south region, (7 to 24°C) in west (3-31°C) in east. The number of foreign students studying in China has grown from about 61 thousand to 489 thousand growing each year about 10%. Those foreign students are mainly from South Korea, Thailand, America, India, Russia, Japan, Indonesia, Kazakhstan and Laos. It is only after you have traveled to China that you will learn that Chinese people are more friendly and hospitable than you perceive. Young generation are versed in English and would be happy to chat with you, giving you the information you need, and knowing things about you and your country.

Living in China is very affordable. The facilities provided are a class apart and the universities boast excellent infrastructure and teaching hospitals. There is a range of Chinese food, Western food, tea houses and snack bars at disposal. With convenient transportation, students can choose anyone for themselves.

Belarus

Belarus is a landlocked country in Eastern Europe bordered by Russia to the northeast, Ukraine to the south, Poland to the west, and Lithuania and Latvia to the northwest. Belarus is famous for its stunning architecture, grand fortifications, and primeval forests.

Belarus has suddenly emerged as one of Europe's 'it' destinations, driven by relaxed VISA requirements, outstanding art and cafes, impressive dining, elaborate museums and above all hospitable and friendly locals making for a thoroughly enjoyable experience in the country.

Belarus is a wonderful place to explore no matter what time of year you pick. With a diverse geography and a passion for natural history and wildlife, Belarus would be an outdoor enthusiasts' dream. The climate features mild to cold winters, with average January minimum temperatures ranging from -4°C (24.8°F) in southwest (Brest) to -8°C (17.6°F) in northeast (Vitebsk), and cool and moist summers with an average temperature of 18°C (64.4°F).

Belarusian cuisine consists mainly of vegetables, meat (particularly pork), and bread. The national dish Draniki is a Belarusian style shallow fried potato pancakes made of grated potatoes. Foods are usually either slowly cooked or stewed. Common dairy products include curd, cheese, sour cream and butter. Milk is a regular ingredient in many Belarusian recipes, including all kinds of soups, porridges, mokanka.

More than 6000 foreign students study at Higher Education Institutions and Universities in Belarus every year. This number is increasing every year. There is a very high chance of permanent residence & settlement in Europe after completion of study program. Almost all the courses are recognized internationally. You have the opportunity to secure very good jobs after graduation because of the high standard and general acceptance of the degrees.

- A belt or two
- Underwear (two week's worth)
- Socks (two week's worth plus a pair or two of woollen socks)
- Thermal underwear
- Flip flops/ sandals
- Sneakers/ dress shoes/ boots/ rain boots(as per weather)
- Cold weather gear (i.e. gloves/ mittens, hat, scarf)
- Coat/Jacket (at least 2 – one for cold weather, and one that is water resistant)

FOOD

- Snacks
- Ready to cook food
- Spices
- Some home-made dry food

Selecting the right medical institution is the most important decision of your life as it will shape up your career as a successful doctor be it India or abroad. So, gather as much information as possible before taking any transformational decision .

Is studying abroad expensive?

Studying abroad can be quite affordable. The overall cost depends on your choice of study destination (cost of living), kind of university (public or private), currency exchange rates, personal expenses, accommodation/food fees charged, medical insurance and international travel costs.

I don't know another language. Will this be a problem?

Not at all. While a few programs have a language prerequisite or will like you to know basic native language for local communication, these University offer MBBS programs in English and you can sort your choices with the help of SCG.

Do I need an education consultant?

While you can apply to some institutions directly, you should choose to use the expertise of an abroad education consultant to guide you through the process of choosing the right university. Using an accredited and trusted entity, like SCG, reduce the stress of scouting the university and complete the whole process smoothly, as we are authorised partners of many universities abroad.

What if my parents don't want me to go overseas?

It's natural for a family to be nervous about sending their child alone to a new country. You should include your parents in any discussions or appointments you have with SCG. Your parents would feel more confident if they are involved in the process of your applications and preparations.

Does it cost money to see a counselor at SCG?

Our services are free for students. You do not have to pay anything to book an appointment for counseling and guidance at SCG.

Can I get a job in a Government hospital or allied medical institutions in India after studying MBBS abroad?

Yes. After clearing the MCI screening test and getting your registration with the State or Central Medical Council, you are eligible for any Government appointment.

When should I start planning for studying abroad?

MBBS Universities abroad have different intakes for a year. Some have two intakes (summer/winter) while others may only have one. SCG will inform you about everything. You should start planning at least one year in advance and initiate steps for admission at least 3-4 months advance for a smooth process.

Who is eligible for studying MBBS abroad?

Any Indian resident who has attained the age of 17 years and has passed 10+2 Level from any recognised Council/Board of India. He/she had Physics, Chemistry and Biology as elective subjects with 50%+ marks in PCB and English as a compulsory subject. NEET qualified. For some countries/colleges your PCB % should be 65%+.

What is the duration of MBBS course abroad?

The duration of course can be 5 or 6 years depending upon the country of choice.

What is the medium of instruction?

The medium of instruction for MBBS course is English. The students are also taught the basics of the local language for communicating with the natives.

How are the Hostel facilities abroad?

On campus accommodation with single, double & triple sharing basis and attached bathrooms are available. Students can also choose to stay outside in apartments.

What kind of food will I get?

Kitchen facilities are available for students who want to cook themselves. Most universities have Indian Mess and restaurants available nearby.

Who to contact if student faces any problem while staying there?

All the universities have a separate International Students Department to help foreign students in every way. Additionally, SCG representatives are always ready to help students out in the host country.

What is the vacation period abroad?

Students get holidays of about 6-8 weeks every year. They can come home during this time.

How can parents send money to their children? Can students open a Bank account there?

Students can take International debit card, forex card or cash (USD) with them. Students can also open a bank account in Local Bank.

Are the Medical Universities abroad recognised?

SCG provides only those universities which are listed in WHO and recognised by the MCI so that students can return and practice in India or any part of the world by taking the appropriate licensure exam.

FMGE

Candidates who possess primary medical qualification from a medical institution abroad and are looking for provisional or permanent registration with the State Medical Council or the Medical Council of India, need to appear for FMGE exam. The FMGE (Foreign Medical Graduates Examination) is conducted twice a year in June and December.

FMGE APPLICATION PROCESS

- The registration of FMGE is a four-step process: registration, filling the application, uploading documents and submitting the fee.
- The application fee of the examination is Rs. 5,500.

FMGE ELIGIBILITY CRITERIA

- You must either be an Overseas Citizen of India (OCI) or a bonafide citizen of India.
- You must also possess a primary medical degree that is confirmed by the concerned Indian Embassy.
- Your qualifications must be recognized by the country where the institute is situated.

FMGE TEST PATTERN

- MCQ based- objective paper
- Total Marks-300
- Two parts- each of 150 marks.
- Duration-150 minutes for each section.
- Scheduled break between the 2 parts
- 15 Minutes tutorial to test features such as select, deselect, navigate from one screen to another etc.

FMGE SYLLABUS

- The FMGE exam conducted by NBE is based on Pre-Clinical, Para Clinical and Clinical part of MBBS and totally 19 subjects taught as per the course designed by Medical Council of India.

FMGE ELIGIBILITY CRITERIA

- If you wish to clear the examination, you must secure at least 150 out of 300 in the MCQs, i.e., secure at least 50% in your examination.
